

## ( A GROWTH OVERVIEW )

Companies experiencing rapid change (growth or downsizing) tend to operate reactively. Complex decisions surrounding real estate require a broker. Strategic decisions about technology require senior-level management. Investment-type procurement requires a diligence period and a watchful eye on spending.

*Who is watching over this process?*

Orion provides our clients with a transparent 360-degree platform of integrated services designed to provide *cost avoidance, cost savings, and reduced time to market.*

ORION BREAKS DOWN TRADITIONAL SILOS TO EXPOSE RELEVANT AND OFTEN CRITICAL INFORMATION ACROSS THE PROCESS.

### SMART GROWTH

Orion helps organizations develop and implement a physical growth plan to ensure maximum efficiency in terms of square footage, tenant improvement allocation, and distinguishing OpEx vs. CapEx. Our strategy works in lockstep with our clients' revenue goals to prevent costly, on-the-fly decisions.

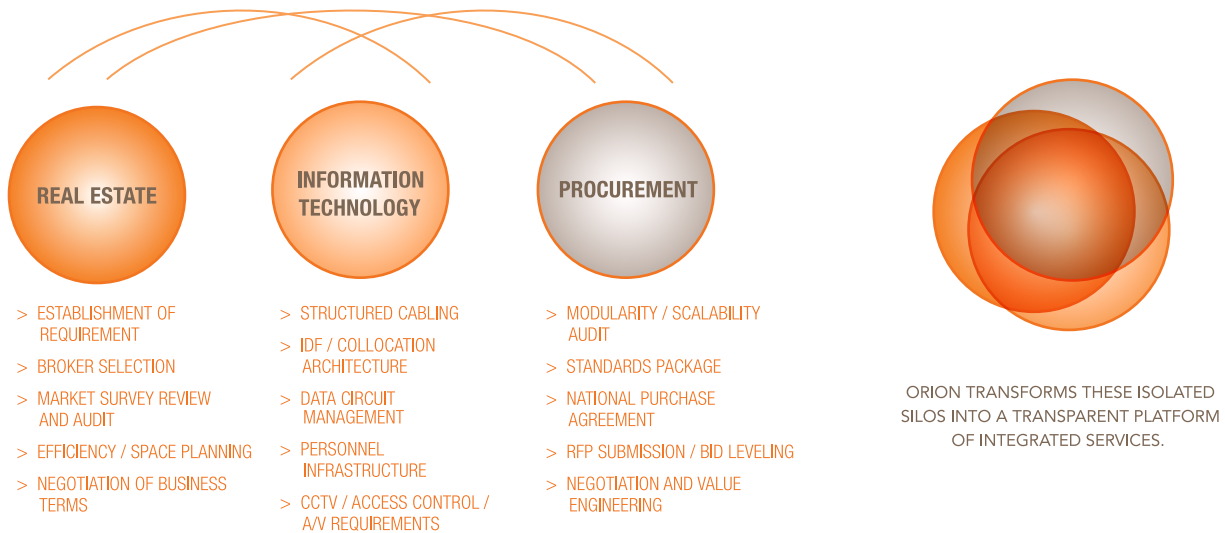

### UNBIASED PARTNERSHIP

Our fee-based structure and obligation to convey our clients' requirements generates the necessary bond for a successful transition. This partnership, coupled with effective communication, leads to cost-predictability throughout an unpredictable process.

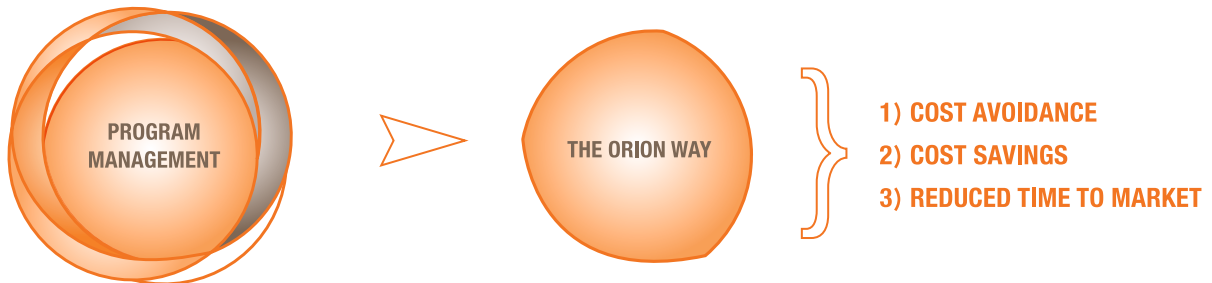

### SEAMLESS PROGRAM MANAGEMENT

Orion's integrated services platform provides clients with a single-source solution for every phase of their transition: from site discovery, efficiency planning, construction, and procurement to the creation of repeatable platforms. We also work on a project basis, applying tailored components of our service-offering to help address a specific set of challenges.
